MODULES OFFERED

ABDOMINAL, OBSTETRIC AND GYNAECOLOGICAL ULTRASOUND MODULES

The institutions listed offer modules covering the following three subject areas (full MSc programmes only).

- Science and Instrumentation
- Obstetric and Gynaecological ultrasound
- Abdominal ultrasound

It should be noted that the name given to the individual modules covering the above subject areas varies between individual institutions.

VASCULAR ULTRASOUND MODULE

Those institutions which offer an identified vascular ultrasound module are listed below:

| | |
|-------------------------------|----|
| • Birmingham City University | 8 |
| • University of Cumbria | 22 |
| • University of Derby | 25 |
| • University of Hertfordshire | 45 |
| • Teesside University | 66 |

MUSCULOSKELETAL (MSK) ULTRASOUND MODULE

Those Institutions which offer an identified MSK modules are listed below:

| | |
|--|----|
| • Birmingham City University | 8 |
| • Brunel University of London (PgC) | 12 |
| • Canterbury Christchurch University (PgC) | 15 |
| • University of Cumbria | 18 |
| • University of East London (PgC & PgD) | 29 |
| • University of Essex | 33 |
| • Health Sciences University | 41 |
| • University of Hertfordshire | 45 |
| • King's College London | 48 |
| • London South Bank University (PgC) | 52 |
| • Sheffield Hallam University | 62 |
| • Teesside University | 66 |

| LBR7367 | Masters Project | 40 | | MSC** |
| LBR7437 | Masters Project | 60 | | MSC* |

* denotes a core/compulsory module

** denotes option for MSc, DR = Day Release, Blended = mixture of face to face and online delivery

METHODS OF ASSESSMENT

| | |
|----------|---|
| Academic | <p>Fundamentals of Ultrasound - Two 60-minute invigilated assessments Part A: 60 minutes Physics and Technology questions. Part B: 2000 word professional issue essay</p> <p>Obstetric Ultrasound; Abdominal Ultrasound and Vascular Ultrasound, Musculoskeletal Ultrasound: - Within the academic environment the summative assessment will be in the form of a 2000-word case study and a 30 minute Viva Voce undertaken at the university.</p> <p>Gynaecological Ultrasound and Ultrasound in Early Pregnancy, Negotiated Specialist Subject 1 and 2: Within the academic environment the summative assessment will be in the form of a 2000-word case study.</p> <p>Theoretical Fetal Medicine: Within the academic environment the summative assessment will be in the form of a 1500-word assignment based on a Fetal medicine scenario. and a 60-minute invigilated assessment (online).</p> <p>Research: Methods of Enquiry. Within the academic environment the summative assessment will be in the form of a 20-minute prerecorded PowerPoint presentation and 10 minute Q&A on Microsoft teams.</p> <p>Leadership for Advanced Practice: 3000-word Management proposal.</p> <p>The Dissertation: There are two options: A 40 credit 10000 word or 60 credit 15000-word submission of a dissertation or professional practice project.</p> |
| Clinical | <p>Obstetric Ultrasound; Abdominal Ultrasound and Vascular Ultrasound, Musculoskeletal Ultrasound: Within the clinical environment the student will produce a Clinical portfolio which will include: a diary of clinical hours, a log book of examinations and summative clinical assessment.</p> <p>Gynaecological Ultrasound and Ultrasound in Early Pregnancy, Negotiated Specialist Subject 1 and 2: Within the clinical environment the student will produce a Clinical portfolio which will include: a diary of clinical hours, a log book of examinations and summative clinical assessment.</p> |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

GENERIC CRITERIA FOR ADMISSION TO LEVEL 7 PROGRAMMES

Candidates must satisfy the general requirements of the programme, which are as follows:

- A first degree in a health-related subject with a classification of lower second class (2:2) or above, or an equivalent professional qualification with two years post qualification experience.

CASE DIRECTORY

- Minimum of 2 years professional experience.
- Working in an appropriate area of practice with specific agreement of employer.
- (You will be required to have a named supervisor who holds a CASE accredited ultrasound qualification before you can start on the programme.)
- EU students should additionally have an English Language qualification as specified by the International Office.
- International students are not accepted for this course.

RECOGNITION OF PRIOR LEARNING

The student completes an APA/APEL form, giving the modules for which they want credit. They provide evidence that they have achieved the learning outcomes of these modules and then complete the form with the help of a course team member. The form and evidence are assessed by two members of the course team and a recommendation made to the APA/APEL office. This must be completed prior to commencing the course.

CASE DIRECTORY

MODULES AVAILABLE

| Module Code | Name | CATs credits | Mode of attendance |
|-------------|--|--------------|--------------------|
| | Module 1: Fundamentals of Musculoskeletal Ultrasound | 30 | PT |
| | Module 2: Integrating Musculoskeletal Ultrasound into practice | 30 | PT |

* denotes a core/compulsory module, PT= Part Time

METHODS OF ASSESSMENT

| | |
|----------|--|
| Academic | Module 1: Completion of mandatory lectures with knowledge check quizzes. Online written paper consisting of physics multiple choice and short answer questions. VIVA assessment. Module 2: Oral case study presentation |
| Clinical | Module 1: Practical scanning skills assessment Module 2: Logbook submission of 250 scans (100 supervised, 150 mentored). Work-based learning assessment. Supervisor sign-off of competence. |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

A UK first or 2:1 Honours degree, or equivalent internationally recognised qualification.

Registered to practice as an allied health or medically trained professional.

Registered with the Health and Care Professionals Council or General Medical Council in one of the relevant allied health professions, or equivalent for other professionals.

Able to demonstrate support from your employer / sponsor including confirmation that you'll have appropriate supervised practise in the clinical area in which you're expected to use ultrasonography.

Have sufficient relevant post-qualification experience in the clinical area in which you will be scanning.

CASE DIRECTORY

Able to demonstrate that clinical governance arrangements are in place to support safe and use of diagnostic ultrasonography.

Have an approved clinical mentor who has agreed to offer you work-based learning. This is advised to be a minimum of 14 hours per week.

Have demonstrable DBS checks and immunisations.

RECOGNITION OF PRIOR LEARNING

RPL may be considered for certain aspects of this course however it will be considered on an individual basis.

CANTERBURY CHRIST CHURCH UNIVERSITY

ACCREDITED: 2019 - present

DATE OF MOST RECENT ACCREDITATION: July 2019

AWARDS OFFERED

| Awards offered | Start Month | Min & Max duration of study permitted | Mode of Study | Credits |
|--|-------------|---------------------------------------|---------------|---------|
| PG Certificate Musculoskeletal Ultrasound | January | 12 months min/max | BR & DL PT | 60 |

NUMBER OF PLACES AVAILABLE EACH YEAR (FIRST YEAR COHORT)

PG CERTIFICATE: 18

CASE DIRECTORY

MODULES AVAILABLE

| Module Code | Name | CATs credits | Mode of attendance |
|-------------|---|--------------|--------------------|
| MPCPH4PST | Principles of Science and Technology in Medical Ultrasound * | 20 | BR |
| MPCPH4TMU | Techniques in Musculoskeletal Ultrasound* | 20 | BR |
| MPCPH4CAMA | Clinical Applications & Management in Musculoskeletal Ultrasound* | 20 | DL |

* denotes a core/compulsory module, BR = Block release/PT = Part-Time/FT = Full Time/DL = Distance Learning

METHODS OF ASSESSMENT

| | |
|----------|---|
| Academic | Three-hour unseen written exam; 20-minute oral presentation; A1 poster; case study; audit and reflective analysis essay |
| Clinical | Summative clinical assessment in musculoskeletal ultrasound |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Applicants will normally:

- Be registered with either the Health & Care Professions Council (HCPC), the Nursing & Midwifery Council (NMC) or the General Medical Council (GMC).
- Have a relevant first degree (e.g. BSc (Hons) Physiotherapy or BSc (Hons) Diagnostic Radiography). Ideally, this should be a first-class degree or a 2:1.
- Be employed / work within the NHS or the Independent Sector in an appropriate clinical role AND have the full support of their employer to undertake the programme of study. This is vital to ensure that they will be released for the minimum two days per week for twelve months for the work based module in order to successfully achieve the necessary clinical competencies.

CASE DIRECTORY

- Have an agreed Clinical Placement with an identified Clinical Supervisor and Independent Assessor for the minimum two days per week for twelve months for the work based module in order to successfully achieve the necessary clinical competencies. The proposed Clinical Placement will be audited to ensure that it meets the requirements of the programme.

Applicants who do not have English as their first language will need a minimum of IELTS of 7.0 or equivalent, with no less than 6.0 in Writing and no less than 5.5 in Reading, Speaking and Listening. We are able to accept other English qualifications, including Bachelor's and Master's degrees depending upon the country of issue.

RECOGNITION OF PRIOR LEARNING

The Programme follows the University regulations regarding the recognition of prior certificated learning (RPCL). Qualified sonographers can choose to undertake just modules 2 and 3 in order to be awarded 40 HE7 credits. Alternatively, if their ultrasound qualification is less than five years old, sonographers can pay an administration fee to use the University's Recognition of Prior Certificated Learning process to formally recognise their previous ultrasound physics module in place of the Principles of Science and Technology in Medical Ultrasound module to be awarded a PgC Musculoskeletal Ultrasound. It is not possible to do modules 1, 2 or 3 in isolation.

* denotes a core/compulsory module, ** students must choose ONE out of the two modules for MSc, PT = Part-Time/BR = Block Release/DL = Distance Learning

CASE DIRECTORY

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Applicants must have a suitable clinical placement and support from appropriately qualified practitioners for mentorship in the relevant area (s) of ultrasound practice organised prior to applying for this course. Honours degree, minimum 2.2, or equivalent qualification usually with a minimum of twelve months post registration clinical practice experience please see the university website for more details.

RECOGNITION OF PRIOR LEARNING

Non-standard students, i.e. those without an honours degree can be admitted through the APL/APEL procedure. Each application will be dealt with on an individual basis, amount and range of experience as well as relevant courses and research activity will be assessed by the course tutor and APEL Committee.

* denotes a core/compulsory module, BR = Block Release/DL = Distance Learning/ DR = Day Release

METHODS OF ASSESSMENT

| | |
|-----------------|---|
| Academic | <p>For the clinical modules (Obstetric, Gynaecology, Early pregnancy, General Medical, Vascular Ultrasound):</p> <p>Academic assessment includes a topic review of a negotiated area of ultrasound practice evidencing a critical review of current literature. This can be presented as either a 3000 word written report or a Poster and written abstract and summary of search strategy.</p> <p>A computer based OSE of 60 minutes for 20 credit modules or 80 minutes for 40 credit modules.</p> <p>For negotiated ultrasound modules (NSUP1, NSUP2, NIUP, Head and Neck Ultrasound):</p> <p>A written e-portfolio of 4000 words evidencing development of the negotiated area of clinical practice. Evidence of rationale for role extension and learning journey. The portfolio should evidence ongoing development of self-audit practice in line with current guidance.</p> |
| Clinical | <p>For all clinical and negotiated modules:</p> <p>Formative clinical assessments performed throughout the module (minimum of 3) by the workplace mentor.</p> <p>Summative clinical assessment performed within the clinical department by the workplace mentor and independent academic assessor. PASS/FAIL assessment component.</p> |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

- Science **OR** health related degree (preferred) at **2:1** or above.
- English language skills equivalent to IELTS level 7

Registered health professionals: You will hold a profession specific honours degree at **2:1** or above (for example Radiography, Nursing, Medicine, etc). If your degree is over five years old, then we would normally expect evidence of successful study at level 6 or above in the past two years.

CASE DIRECTORY

Consideration may also be given to candidates who present with appropriate professional diploma level qualifications and relevant post-registration experience. Non-standard entrants will be considered on a case by case basis.

All applicants to the **PT** pathway must have management support and an agreed clinical placement.

Direct graduate applicants: You will hold a **science or health care related** degree (preferred) at **2:1** or above. If your degree is over five years old, then we would normally expect evidence of successful study at level 6 or above in the past two years.

- You must also have five GSCE passes at grade C or above, including maths and English language. If your first degree is not in a pure science (biology, chemistry or physics), or you do not have a pure science A level at grade B or above then you must have at least one pure science at GCSE, grade C or above.
- You must have had some recent work experience in an Ultrasound department.

RECOGNITION OF PRIOR LEARNING

APEL permitted. The system operates on an individual basis

CASE DIRECTORY

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Application will be reviewed by the Programme Lead which may entail a telephone or Skype interview. For entry to either PGCert or PGDip MSK US, applicants will need to demonstrate they have met the entry criteria: Applicants will require a recognised professional qualification in a relevant and acknowledged subject and be a member of an appropriate professional body including:

- Medical Practitioners: General Medical Council
- Osteopaths: GOC Registered
- Physiotherapists: HCPC Registered
- Podiatrists: HCPC Registered
- Radiographers & Sonographers: HCPC Registered

Applicants should be able to provide evidence of their potential to study at M-level by producing evidence of either:

- A UK bachelor's degree to a 2:1 classification
- or an overseas equivalent in a relevant subject.

Applicants will be required to provide evidence that an appropriate clinical Mentor has been identified in support of the Work based clinical placement for module 2 of PGCert MSK US Diagnostics and for module 2 of the PGCert MSK US Injection Therapy.

Applicants to the PGCert Musculoskeletal Ultrasound - Injection Therapy MUST be able to demonstrate competence in the diagnostic use of ultrasound in their specified area of practice. Entry to the programme will be subject to provision of a satisfactory reference to confirm relevant skills and training.

In the case of applicants whose first language is not English, the University's English Language requirements as detailed on the website at time of application must be met -
see <https://www.uel.ac.uk/international/regions/rest-of-the-world/english-language>

RECOGNITION OF PRIOR LEARNING

Applicants to the PGDip Musculoskeletal Ultrasound may be able to be considered for APEL if for example they have completed a PGCert – Musculoskeletal Ultrasound Diagnostic programme elsewhere.

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Applicants should have a UK Honours degree 2:2 (or equivalent); or an unclassified degree or professional diploma with over two years' clinical practice.

The clinical education element of the programme requires the student to secure an ultrasound clinical placement and qualified clinical mentor prior to application.

Be employed / work within the NHS or the Independent Sector in an appropriate clinical role AND have the full support of their employer to undertake the programme of study. This is vital to ensure that they will be released

RECOGNITION OF PRIOR LEARNING

RPL/RPiL are available. Each application is approved individually, through credit transfer or a portfolio of evidence within university regulations.

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

You'll need a recognised professional qualification or a first degree in a relevant healthcare subject in line with the admissions regulations.

When you apply you should also include a Clinical Workplace Agreement (completed by the work-place supervisor/mentor), just to make sure you can meet all the clinical requirements of the course. A limited number of placements are available at the School of Medical Ultrasound should you be interested; assigned and reviewed by the Course Leader. Please note that this is charged at an additional cost to the course fee. Speak with our School of Medical Ultrasound team for prices, dates, and further details.

English language requirements

To be accepted onto the MSc Medical Ultrasound course you will need to demonstrate that you meet the minimum standards of English. Please note that you will need to achieve IELTS (academic) overall score of 7.0 or above with no less than 6.0 in each section or acceptable equivalent.

We also accept an undergraduate degree from a university in the UK degree or a completed undergraduate or postgraduate degree which has been taught in a 'majority English-speaking' country. These are: Antigua and Barbuda, Australia, The Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Ireland, Jamaica, New Zealand, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Trinidad and Tobago, and United States of America.

RECOGNITION OF PRIOR LEARNING

Applicants may apply at the time of application to be accredited (RPL) for prior level 7 (M) learning or equivalent at the discretion of the Course Leader. The amount of credit will conform to the University College's Standard Accreditation of Prior Learning and Articulation Arrangements. Focussed Short Courses are not eligible for RPL consideration.

Applications for RPL may be based on certificated or experiential learning, or a blend of the two.

Applications for Individual Unit Exemption(s) should be made in writing to the University College during the admissions process or within one month of the start of the unit for which credit is sought.

The appropriate evidence of any certificated or experiential learning must be attached to the application or provided subsequently at the request of the University College.

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

The normal entry requirements for the programme are:

Normally candidates will have a UK honours degree in health care and be registered with the Health and Care Professions Council or equivalent in their respective health profession.

Employment in, or access to an appropriate NHS clinical site whilst enrolled on the programme. Students are responsible for securing an appropriate placement.

Applicants who have completed Diploma of Medical Ultrasound and demonstrate Continued Professional Development are eligible to enrol to complete the research elements.

The programme is not open to international students.

RECOGNITION OF PRIOR LEARNING

APEL is considered on an individual basis.

| 7MWC0009 | Clinical Ultrasound Dissertation* | 60 | PT, BR |

* denotes a core/compulsory module, BR = Block Release/PT = Part-Time

METHODS OF ASSESSMENT

| | |
|-----------------|--|
| Academic | <p>Clinical topic modules (Obstetrics and Gynaecology, General Medical Ultrasound and Musculoskeletal Ultrasound) are examined through a peer learning presentation focusing on the ultrasound appearances of various pathologies and an in-person computer-based exam.</p> <p>The PG Cert Physics and Equipment module is assessed through submission of a structured workbook and in-person computer-based exam.</p> <p>The Research and Service Innovation module is assessed through submission of a 3000-word systematic scoping review and a research project proposal.</p> <p>The Directed Reading module is assessed through development of a 4000-word educational essay or training resource.</p> |
| Clinical | <p>Clinical skills and the integration of theory with practice are assessed in the Pg Cert Clinical Ultrasound Practice and Pg Dip Advanced Clinical Ultrasound Practice modules through delivering a Case Study Presentation (Pg Cert) or Case Report (PG Dip) and submission of a Clinical Portfolio of Evidence. Mandatory elements of the portfolio of evidence include a skills gap analysis and summary of achievement, attendance sheet, logbook of examinations, details of supervisor's observations and feedback, case notes and reflections, details of a visit to another department, and a CPD/preceptorship plan. PASS/FAIL elements include an externally examined work-based clinical proficiency assessment and online viva conducted by the teaching team.</p> |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Prospective Pg Cert students will need to have secured a 21 hour per week clinical placement hosted by a suitable placement provider. Please contact the Programme Director if you are unsure of the suitability of your placement provider. For 2nd year PG Dip students, this requirement drops to a minimum of 14 hours per week.

Prospective students must have their employer's agreement to undertake the course and be provided with adequate supervision, time, and facilities to meet the learning outcomes of the programme.

Prospective students are required to have English language skills equivalent to IELTS level 7

Students may apply to access the Pg Dip or MSc directly by demonstrating Recognised Prior Learning.

Prospective MSc students are required to submit a project proposal as part of their application.

Successful applicants will typically have an honours degree of a 2:2 or above and a professional healthcare qualification.

CASE DIRECTORY

RECOGNITION OF PRIOR LEARNING

CASE DIRECTORY

METHODS OF ASSESSMENT

| | |
|-----------------|--|
| Academic | Module 1: EX1: Viva voce – Professional Issues – 30 minutes (50% weighting), CW1: Written assignment – Physics – 2000 words (50% weighting) Module 2: CW2: Case study and reflection in practice – 3500 words (100% weighting) |
| Clinical | Module 2: EX1: Practical exam – Six (6) patients (Pass/Fail), CW1: Clinical Placement Portfolio - incl. 250 ultrasound scans and reports (Pass/Fail) |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

1. Applicants must have a 2:1 honours degree, or equivalent internationally recognised qualification in Health Care related subject.
2. Applicants must be registered with the relevant UK professional/regulatory body.
3. Applicants must have an appropriate amount and type of post-qualification experience in a clinical musculoskeletal or ultrasound specialism.
4. Applicants must have an appropriate clinical placement with signed agreement for sufficient scanning experience from a Practice Educator/Clinical Mentor, Internal and External Assessors, and Clinical Manager/Department Lead. No unconditional offer will be made without a clinical placement agreement form completed and signed by all parties.
5. Applicants must submit a maximum of one A4 page personal statement outlining why they have chosen to study MSK ultrasound, how they meet the eligibility criteria, and their plans for utilising their qualifications in their professional career post-graduation.

RECOGNITION OF PRIOR LEARNING

APL will usually be granted for academic credits achieved at another CASE accredited UK ultrasound course, provided an adequate match can be made to this course. APL from those courses will be considered on a case-by-case basis but must always be at the appropriate academic level and have a high match to the learning outcomes to modules on this pathway. Hence, students applying need to evidence that their clinical competency assessment was in the musculoskeletal speciality. Any considerations on APL from other courses will be made in conjunction with the Course Director and CASE directly.

CASE DIRECTORY

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

GCSE Grade C or 4, or above, in GCSE English and GCSE Maths

IELTS 7.0 (with no component below 6.5)

Graduate healthcare professionals with a first- or second-class honours degree in a relevant health care or science related subject.

Applicants holding a nonstandard qualification or an undergraduate qualification of 2:2 or lower will be required to provide evidence of suitability for post graduate study by submitting what is required from an academic piece of work set by the University, a satisfactory personal statement and references.

The clinical modules have a clinical placement as a pre-requisite, as students need access to a relevant clinical caseload (for a minimum of 14 hours per week per clinical module) and the support of a suitably trained clinical mentor.

RECOGNITION OF PRIOR LEARNING

Two forms of APL may be used for entry: the Accreditation of Prior Certificated Learning (APCL) or the Accreditation of Prior Experiential Learning (APEL) and is performed on an individual basis.

APL applied for from another CASE accredited UK ultrasound course will usually be granted provided it can be sufficiently mapped against the learning outcomes from this course.

| Clinical | <p>For all clinical modules, students must complete a clinical portfolio which may include:</p> <p>A log book of examinations Formative clinical assessments A summative clinical assessment Summative clinical assessments are completed in the students' own clinical department.</p> |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Candidates for the part time MSc Medical Ultrasound or one of the intermediate awards should usually satisfy the following conditions: -

Applicants will hold a BSc degree (or equivalent professional qualification) which is recognised in the UK by a professional standards regulating body.

Applicants must be employed in or have access to a minimum of 14 hours per week appropriately supervised clinical placement for award routes.

CASE DIRECTORY

The University is not responsible for finding clinical placements for applicants. Entry into the programme will be determined by the suitability of the clinical placement and access to appropriate workload to support student learning.

RECOGNITION OF PRIOR LEARNING

The ultrasound programme allows a maximum of two thirds of the total credits at each stage can be claimed for by Recognition of Previous Learning processes (RPL). The remaining one third of the credit required for a Sheffield Hallam University award must be studied at the University.

Consideration takes place within SHU's assessment and regulatory framework, which is designed to ensure that assessment decisions are conducted transparently, fairly and consistently for all programmes or subjects. What is often required in practice is varied but can include completion of an application or proposal form, a portfolio of learning (if required) and in all cases approval by a faculty RPL panel.

The QAA indicators of sound practice are fully adhered to, and SHU publishes comprehensive guidance on RPL which is available to read publicly on 'shuspace' under Rules and Regulations.

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

You should have:

- Honours Degree (or equivalent)
- 2 years post registration experience in a related clinical practice
- Support of an appropriate clinical placement and mentor.

RECOGNITION OF PRIOR LEARNING

Both RPCL and RPEL are appropriate. Applicants must complete a personal portfolio that reflects a set of learning outcomes appropriate to Level 7 that will demonstrate the applicant's ability to engage with and complete the ultrasound programme.

| Clinical | Practical Clinical Assessment, Portfolio of Evidence. |

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

Applicants must:

- a) Have gained
 - i) An Honours or non-Honours degree from a University of the United Kingdom or the Republic of Ireland or from a recognized national awarding body, or from an institution of another country which is recognised as being of an equivalent standard; or
 - ii) An equivalent standard in a Postgraduate Certificate, Graduate Diploma, Graduate Certificate or an approved alternative qualification; and
 - iii) Where applicable be eligible for registration with the Health and Care Professions Council and normally, currently in relevant employment or have access to the appropriate patient/client group, as approved by the course committee
- (b) Provide evidence of competence in written and spoken English (GCSE grade C or equivalent) and for non-native English speakers, IELTS 7.0 (with no contributing band at less than 6.5) or, as an alternative to (a) (i) or (a) (ii) and/or (b)
- (c) In exceptional circumstances, where an individual has substantial and significant experiential learning, a portfolio of written evidence demonstrating the meeting of graduate qualities (including subject-specific outcomes, as determined by the Course Committee) may be considered as an alternative entrance route. Evidence used to demonstrate graduate qualities may not be used for exemption against modules within the programme.

RECOGNITION OF PRIOR LEARNING

Non-graduate candidates who do not satisfy the above requirements but who can prove evidence of their ability to undertake the course through the accreditation of prior learning may be considered for admission.

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

ANTICIPATED ENTRY REQUIREMENTS

LEVEL 2

GCSE: 5 at grades 5-9 (or C or above), including Maths, English Language and Science.

LEVEL 3

A wide range of entry qualifications may be considered to meet level 3 requirements, the most common of these being:

A-LEVEL: minimum BBB including at least one science (Biology, Physics, Chemistry, or Maths)

BTEC: level 3 extended diploma, normally Applied Science (minimum one third) – distinction/distinction/distinction

ACCESS TO HE DIPLOMA: 30 level 3 credits with distinction (a minimum of 15 in science) and 15 level 3 credits with merit

INTERNATIONAL BACCALAUREATE: 34 points overall, including 3 higher level subjects at minimum of grade 5, one of which must be a science subject

FOUNDATION YEAR: foundation years offered at the University of Leeds requiring a minimum of 60% overall, and no less than 55% in each subject. Accepted routes at the University of Leeds are;

Interdisciplinary science foundation year (UK students only)

International foundation year (international students only)

PREVIOUS DEGREE: pass in a relevant subject (minimum one third science)

T LEVELS are not currently accepted

CASE DIRECTORY

SUBJECT SPECIFIC REQUIREMENTS:

Applicants must be 18 years of age or over by the first day of the programme.

Need to show evidence of study in the last 5 years.

Any offer of a place to study on this course is conditional upon a satisfactory confidential occupational health assessment. All students will complete a pre-registration screening questionnaire which allows our occupational health team at the University support you to meet your true potential on the programme despite any pre-existing health concerns you may have. The process also allows our occupational health team to check your immunity requirements so we can ensure that both patients and you are protected and kept safe. This will involve understanding your immunisation record to date.

All criminal convictions must be declared at application and all offers are subject to satisfactory enhanced DBS or International Criminality check

<https://www.leeds.ac.uk/undergraduate-applying/doc/alternative-admissions>

<https://www.leeds.ac.uk/undergraduate-applying/doc/accepted-qualifications>

ALTERNATIVE ENTRY

The University of Leeds is committed to identifying the best possible applicants, regardless of personal circumstances or background and widening participation and contextual admissions processes are heavily considered as part of the admissions process.

Access to Leeds is an alternative admissions scheme which accepts applications from individuals who might be from low income households, in the first generation of their immediate family to apply to higher education or have had their studies disrupted. Eligible students who apply to Access to Leeds will be given an alternative offer, in addition to their standard offer, which is equivalent to a two grade drop at A-level (i.e. BCC) though the science requirements must still be met (i.e. a B for A-level). Applicants must complete the Access to Leeds module for their alternative offer to stand.

OTHER ADMISSIONS REQUIREMENTS

All offers are conditional to satisfactory occupational health screening and disclosure and barring service (DBS) checks.

ENGLISH REQUIREMENTS

All applicants must demonstrate English proficiency as part of the admissions process. For applicants whose first language is not English, they will have to demonstrate IELTS (or acceptable equivalent) 7.0 overall, with no less than 6.5 in any area.

ADMISSIONS PROCESS

Applications are through UCAS and shortlisting is undertaken using academic profile (actual/predicted grades), references, and personal statements on the application

CASE DIRECTORY

RECOGNITION OF PRIOR LEARNING

Opportunities for accreditation of prior learning (APL) are available.

ENTRY REQUIREMENTS FOR PROSPECTIVE STUDENTS

The course entry requirements have been developed to ensure that apprenticeships are accessible to a wide and diverse range of applicants whilst still ensuring appropriate standards to allow those to be successful on the course. Entry requirements are as follows:

- Have the right to abode in the UK
- Meet the course entry requirements
- Maths and English form a mandatory part of all apprenticeship standards, and the government requires that all higher and degree apprentices demonstrate evidence of English and maths qualifications at Level 2 or above (Nb. Grade 4 or higher for current GCSEs, previously Grade C or above), before an apprentice can pass through the Gateway and complete their apprenticeship. Where an apprentice during our onboarding process does hold a Level 2 qualification or cannot evidence achievement at Level 2 or above in English and Maths, we will refer the apprentice to our Functional Skills Training Partner to complete

CASE DIRECTORY

the relevant English and/ or Maths Functional Skills qualification during the first year of their apprenticeship.

- If English is not your first language, you will also need an IELTS score of 6.5 with a minimum of 5.5 in all skills, or equivalent. If your level of English language is currently below IELTS 6.5 we recommend you consider an appropriate Sheffield Hallam University [Pre-sessional English course](#) which will enable you to achieve the required level of English. Please note that the Health & Care Professions Council (HCPC) require IELTS 7.0 with no element below 6.5 for registration.
- We also require evidence of successful formal accredited study at level 3 and a minimum of 6 months experience in a health and social care capacity (including any placements or work-based learning undertaken as part of a level 3 qualification). This is because we place high value on experiential learning obtained through health and social care experience.
- Where applicants do not have a minimum of 6 months experience working in a health and social care capacity, we would still invite to apply but as they do not hold health and social care specific experiential learning, we would need evidence of higher academic learning from previous study at level 3 and above. We would expect applicants with no health and social care experience to normally hold one of the following:
 - 96 UCAS points or above from A levels or equivalent qualifications such as BTEC Nationals, Cambridge Technicals, OCR Nationals and T Levels.
 - Access to HE Diploma from a QAA recognised Access to HE course.
 - Level 3 Apprenticeship.
 - Higher Technical Qualifications (HTQ'S) New or existing Level 4 or 5 qualifications (such as HNDs, Foundation Degrees, Certificate HE or Diploma HE)
 - Previous degree.
 - Other qualifications may be considered in discussion with the University.
- Where applicants have undertaken qualifications in a related subject, we will consider this an individual basis.
 - An applicant's understanding of health and social care and the profession is assessed throughout the selection event processes.

The University is not responsible for finding clinical placements for applicants.

RECOGNITION OF PRIOR LEARNING

Recognition of prior learning, credit or prior experiential learning will be considered on an individual basis.

NHS ABDOMINAL AORTIC ANEURYSM SCREENING PROGRAMME

ACCREDITED: 2017 - present

DATE OF MOST RECENT ACCREDITATION: March 2023

FOCUSED COURSE

| Focused Course | Details |
|--|---|
| Level 3 Diploma for Health Screeners (Abdominal Aortic Aneurysm Screener) | <p>The level 3 diploma for health screeners was developed to support trainee screening technicians employed by an NHS AAA screening programme provider. It is a vocational qualification which assures employers and commissioners that screening technicians have the knowledge, skills and understanding required for their role. It consists of 13 units that provide an introduction to the core principles of working within a healthcare environment including safeguarding adults, infection prevention and control and health and safety as well as an introduction to health screening principles. There are also 3 AAA specific units related to the ultrasound assessment of the abdominal aorta and the basic physics principles of ultrasound, and principles of AAA screening and treatment.</p> <p>The diploma is regulated by The Office of Qualifications and Examinations Regulation (Ofqual) and is at level 3 on the Regulated Qualification Framework (RQF).</p> |
